PROJECTS

Tribe Full Stack Application

Built a full stack medicinal marijuana telehealth platform that allows users to be evaluated by a licensed physician online via video chat.

Food Bucket Full Stack Web Application

Built a food application that allows people to add and share bucketlists of restaurants.

Vinyl Mobile Application with React Native

Built a live music platform that connects users, musicians and venues using geo-location to map each event.

Que React Native application using Raspberry PI

Currently building a platform that allows BBQ pitmasters to track, monitor and control the metrics of their cooks. With the use of python and a raspberry pi I created a controller that allows users to adjust their cookers temperature from a mobile device

EXPERIENCE

Web Development Immersive Student

General Assembly | July '17 - Oct. '17

Completed a 13-wk, 600+ hr immersive web development program. Over the course of these 13 weeks, I worked in a simulated production environment, developing 4 full-stack projects.

In addition to building technical abilities, I refined my product management skills from the planning to execution stages, which included wireframing, whiteboarding, presenting data structures, team workflow management, and employing Agile/SCRUM methodologies.

Assistant Property Manager

JRK Property Holdings | September 15' - July 17'

Helped increase our total occupancy rate by 12 percent within my first year.

Toured, screened and processed all prospects while maintaining a 61% conversion rate Personally leased 114 apartment homes in my first year.

Real Estate Agent

RE/MAX | July 15' - Present

Exceeded personal sales quota by at least 15% every year throughout tenure.

Closed an average of 11 Transactions over 3 years. Assisted in the revitalization of four under performing properties in the providence metro area.

EDUCATION

Johnson and Wales University

B.S. Entrepreneurship (Candidate)
Minor in Marketing
